Company Name: SKT WordPress Themes

Description: WordPress hosts many Free WordPress Themes in their repository but to find the best suitable ones out of the many is a Herculean task. Hence we created our own free themes which are hosted both on WordPress as well as on our website. With the quality SKT Themes offers and the ease of use you get with each of the free themes one returns back again and again to download a new free one for their next project or use for their next website. One should also note that these themes are GPL and hence can be used in both commercial and personal projects.website: <http://www.sktthemes.net>
